

Home Buyer Checklist

This checklist identifies some of the important factors to consider when choosing a home. In addition to an affordable sales price, you will also want to be sure that the neighborhood and house meet the needs of your family. For instance, if you have children, you may want to know if there are other children in the neighborhood or if schools and playgrounds are nearby. As a working person, the distance and travel time to and from your place of employment or the availability of public transportation may be of concern. You may already know the type and size of home that you would like to purchase, but there are many other features of the home that you will also want to consider; for example, the condition of the plumbing, heating, electrical systems, and whether these are up to code, closet space, number of bedrooms, etc., before deciding to buy a particular house.

Take this checklist along when you go shopping for your house. It will help you evaluate the neighborhoods and assess the availability and condition of various features of up to three homes in a side-by-side comparison.
